

# G-TWIST

Twisting machine for the production of **technical twisted woolen** yarns (up to 12).

External or on-board feeding reel.  
Each spindle has its own motor.

1

Collection on flanged spools  
h=400 mm

2

Yarns for:

- **Outdoor furniture**
- **Knitwear**
- **Clothing**

3

Standard version: 6-spindle section

- An inverter controls all spindles:  
you can produce only s twists or  
only z twists on each section.

4

Smart version: 6-spindle section

- An inverter drives pairs of spindles  
and can simultaneously produce s  
and z twists.

Through PC Touch Screen you can enter and save all the work data and technical parameters of the final yarn and control the machine's functionalities.

The PLC manages the precise execution of the data, ensuring the exact speed of the axes in a millesimal measure with exceptional results on the quality of the effects of the final product. Extremely easy to enter and edit general data in a step-by-step or quick mode. Diagnostics for the detection of the state of the machine.
